

# ***MASTERCRAFT BOAT HOLDINGS INC.***

## **Environmental Policy**

Mastercraft Boat Holdings, Inc., is committed to safeguarding natural resources and protecting the environment as part of our daily operations. Through our commitment to compliance, conservation, communication, and continuous improvement we seek to foster a culture of environmental consciousness throughout our business. In accordance with our commitments to environmental protection and stewardship, we strive to,

- Implement environmentally conscious policies designed to reduce our impacts on the environment and our communities,
- Promote the efficient use of natural resources, including energy, and minimize our emissions, including greenhouse gas emissions,
- Minimize our water consumption, recognizing that access to abundant, clean water is a human right and a critical resource for our operations and the communities and ecosystems in which we operate,
- Protect biodiversity and cultural resources through programs to avoid, minimize and/or mitigate impacts to wildlife, natural habitats, historical resources and communities,
- Manage all operations to meet or exceed applicable environmental regulatory requirements,
- Maintain an environmental management system to monitor and manage the environmental impacts and compliance of our operations,
- Engage with our customers, suppliers, communities and other relevant stakeholders on our environmental impacts and opportunities,
- Continually seek ways to further enhance our environmental sustainability efforts.

As part of our commitment to the environment, we monitor and report environmental data we deem relevant to our operations, such as energy use, emissions and other relevant information. We are committed to transparency regarding our environmental sustainability efforts through public disclosures on our website and/or CSR reporting.
